

**Great-West Lifeco cautions investors regarding Ocehan LLC's
mini-tender offer for shares in Canada**

Winnipeg, November 8, 2024 . . . Great-West Lifeco Inc. ("Lifeco") has been notified of an unsolicited mini-tender offer by Ocehan LLC, made to residents of Canada, to purchase up to 50,000 common shares of Lifeco. The unsolicited offer represents a discount of approximately 19.70% to the closing price of the common shares on the TSX on October 24, 2024, the last trading day before the offer was commenced.

Lifeco does not endorse Ocehan's unsolicited offer, has no association with Ocehan or its offer, and does not recommend acceptance of the offer. Ocehan's offer has been made at a price below the current market price for the shares.

Mini-tender offers such as Ocehan's seek less than 5% of a class of outstanding shares and so avoid many of the investor protections like disclosure and procedural protections applicable to most bids under Canadian law. Securities regulators have expressed serious concerns about mini-tender offers, including the possibility that investors might tender to such offers without understanding the offer price relative to the actual market price of their securities. The U.S. Securities and Exchange Commission has noted that some bidders make these offers at below-market prices "hoping that they will catch investors off guard if the investors do not compare the offer price to the current market price".

Lifeco urges shareholders to obtain current market quotes for their shares and to consult with their broker or financial advisor in considering Ocehan's offer. According to Ocehan's offer documents, Lifeco shareholders who have already tendered their shares can withdraw their shares no more than 30 days after the date of delivery of their tender form to the depositary by following the procedure described in the offer documents. Ocehan has reserved the right to purchase an additional amount of shares over and above 50,000 common shares, such additional amount not to exceed 2% of the outstanding common shares.
